COURSE WEIGHTING

A 6 credit-hour course is normally taught for the whole academic year (September to April). A 3 credit-hour course is normally taught in one semester (September to December, or January to April).

GPA

The grade point average is the student's average calculated by dividing the total points earned by the total credit hours attempted within either the semester (term GPA) or the academic year (annual GPA).

CGPA

The cumulative grade point average is computed by dividing the total points earned by the total credit hours attempted at St. Thomas University.

ACADEMIC STANDING

The annual grade point average (gpa) determines a student's academic standing. There are three types of academic standing: good standing (2.0 and above), academic probation, and required to withdraw. Students named to the Dean's List achieve a minimum gpa of 3.7 on 30 credit hours in the academic year.

GRADUATION

Degrees and diplomas are granted at convocations in May and July of each year, and may be granted through early conferral on November 1 and March 1.

The recognition of "Distinction" is awarded to graduates who attain a combined average of 3.7 over their last two academic years, i.e. 60 credit hours, of their programme.

REPEATED GRADES

Courses which are repeated do not receive credit and are not calculated in the grade point average in the first instance.

These notes are for information only.
The academic regulations are as described in the University Calendar.
